About of EA Sports FC Mobile Beta Game APK

EA Sports FC Mobile Beta APK is a test version of the popular football game FIFA 24 for the Android operating system. Developed by EA Sports, this beta allows players to preview the game's latest features and improvements before the official version is released.

In the FC Mobile Beta APK, players have the opportunity to build their own dream team, choosing from thousands of real-life players from top clubs and teams around the world. By collecting player cards, players can improve their squad and customize their tactics to their personal style and preferences.

The game has been perfectly adapted for the touch screen, making it easy for the player to control the players and perform offensive and defensive actions. Using the left thumb to direct the player to control

the ball and the right thumb to make offensive and defensive moves, the player can show his football skills flexibly and nature.

During the play of EA Mobile Beta APK, players will undergo a series of training courses, which will familiarize them with the control system and new features of the game. After completing the training, players can confidently enter the game's vibrant and engaging soccer world.
