GRIS lets players traverse and unlock a stunning emotional landscape

GRIS is a truly beautiful platformer created by Catalonian developers, Nomada Studio. Playing as the eponymous character of the game, players must overcome personal trauma by exploring and completing puzzles in levels that symbolise her psyche. As the game progresses, the way in which GRIS views her world transforms. Plunging the player into an astonishing visual experience, GRIS is just as much a work of art as it is a fun platformer.

Gris is a hopeful young girl lost in her own world, dealing with a painful experience in her life. Her journey through sorrow is manifested in her dress, which grants new abilities to better navigate her faded reality. As the story unfolds, Gris will grow emotionally and see her world in a different way, revealing new paths to explore using her new abilities.
